TREE INVESTMENT LTD

TREE INVESTMENT HUB

CIRCULAR ECONOMY & ENVIRONMENTAL GROWTH

INTRODUCTION

Tree Investment Ltd are a unique arboriculture consultancy business providing strategic, innovative tree planting, design and management solutions. Clients range from domestic householders to commercial landowners, community groups to national organisations, developers and architects to farmers. The company's ethos is that trees represent a tangible investment opportunity; with the aim of promoting the benefits of trees and the multitude of ecosystem services they deliver. Tree Investment Ltd have an ambition to educate and empower clients to make informed investment decisions on tree selection, planting and the management of existing trees.

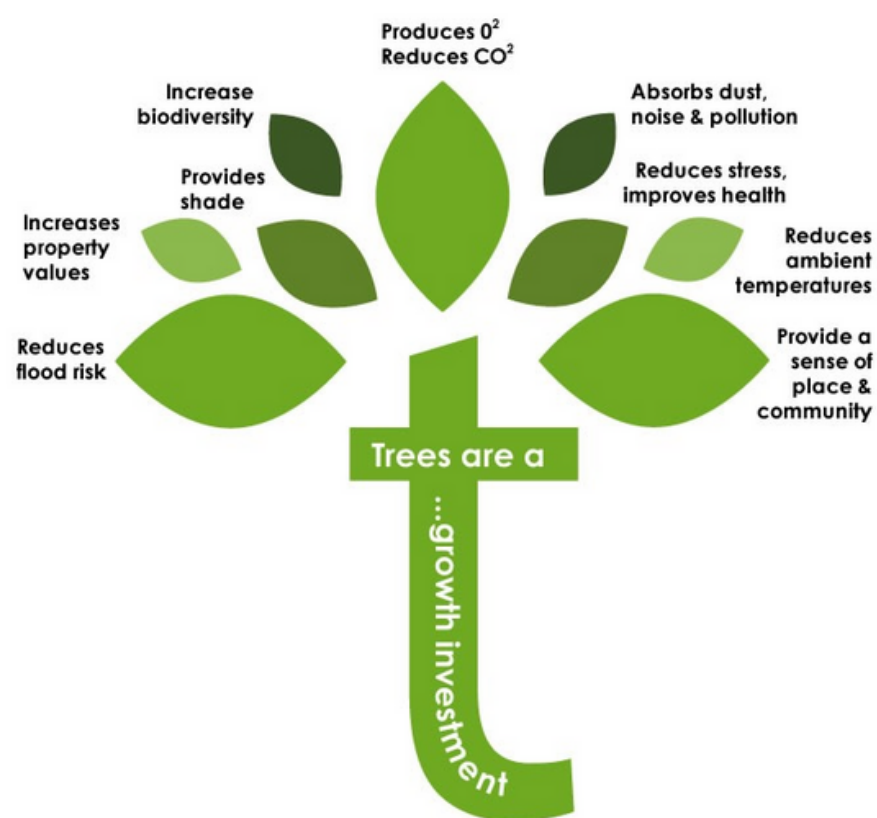

With Tevi funding, Tree Investment Ltd aim to create an environmental centre of excellence (the hub project) that serves as an educational training & research facility and a multi-faceted commercial enterprise. The centre of excellence will provide an innovative educational facility for business, conservation groups, landowners and environmentally conscious individuals, alongside training/apprenticeship programmes for those considered NEET, gap year placements and students.

BUSINESS ASSISTANCE

"With Tevi support we were able to clarify our vision for this project and bring experts on board to help turn our idea into reality.

We are now on the path to taking our business from inception to development and look forward to working with the useful contacts that we've made along the way".
